

## **Online Public Inspection File Exhibit**

Station KWPZ(FM), Lynden, WA (Fac. ID No. 14506)

### **Political/Issues Advertising**

In connection with preparation of this license renewal application, it was discovered that some political advertising materials were not timely uploaded to KWPZ(FM)'s online public inspection file (OPIF) during the last two years. The short delays in uploading political advertising materials were because the licensee's staff was unaware of the FCC's rule requiring immediate uploading to the station's OPIF of each component of a political or issues advertising order. Corrective procedures have been adopted by the licensee to ensure that all political and issues advertising materials are uploaded immediately in the future.
