

SHARED AUXILIARY ANTENNA
(Page 1 of 1)
Clear Water Brands, Inc.
Eau Claire, WI

The proposed WAXX auxiliary antenna will also be licensed as an auxiliary antenna for WIAL, WISM-FM and WECL. Because it will only, however, be used by one of these stations at a time, there is no reason to include a special operating condition on the construction permit requiring that measurements be conducted to insure adequate suppression of intermodulation products.

This application is for an additional auxiliary antenna for WAXX, not a modification of BXLH-20190430ABD.
