IN THE MATTER OF

Slavic Community Center of NW, Inc.

KBSF-LP

Fac ID# 196785

Previous Violations

On March 14, 2019, Slavic Center of NW, Inc. (Applicant) was issued a *Notice of Violation* (NOV) from the Regional Director, Region Three, Enforcement Bureau (EB).¹ The NOV outlined violations of 47 CFR §11.15 (EAS Operating Handbook) and 47 CFR §11.52(d)(1) (Monitoring Assignments).

Applicant did respond to the NOV to state that the EAS Handbook was located on a bookshelf near the transmitter. This issue was immediately corrected by moving the location of the handbook to the operator duty station in the studio and all staff were briefed on the location of the EAS Handbook.

In respect to the monitoring assignment, the person who EB met at the station was not an engineer and had to contact someone else to find out which stations were being monitored, they were told "101.1 and 95.1 MHz". A few minutes later the person who provided the information that the station was monitoring 95.1 realized they made an error and meant to say "91.5", which is KOPB-FM, the monitoring assignment. Applicant attempted to immediately contact the agent whom didn't answer their phone, so the Applicant left a voice mail message and followed up with an email. To prevent confusion in the future, Applicant has placed a label near their transmitter that states the frequencies that are being monitored by the EAS.

Both of these issues were immediately resolved, and the station remains in compliance.
