

### **Discontinued Operations and Minimum Operating Schedule**

During the last license renewal period, TV Red de Puerto Rico, Inc. (Licensee) of the stations listed below, cannot certify that the stations were not silent for more than 30 days or 12 consecutive months. The station's facilities were destroyed by Hurricane Maria. Licensee filed various request for Silent STA notifying the FCC of that fact. The Commission subsequently granted several extensions of the original STA's. Subsequently Licensee filed and was granted several Engineering STA's to operate at reduced power and later modified construction permits which has since been built; the TV Red stations, specifically W16CW-D and W18DQ-D, are currently licensed and operating pursuant to granted modified CP's.

As the Commission knows, Puerto Rico has experienced tremendous economic and environmental hardship during the previous license term. Given the extraordinary circumstances faced by Puerto Rico broadcasters during the previous license term, Licensee believes it has fulfilled its public interest mandate to the best of its abilities and remains committed to ensuring that its stations serve the community.
