

**October 2021  
New FM Channel 209A  
Browning, Montana  
Baseline NCE Service Study**

A study has been made of the baseline (i.e. existing) NCE service provided to areas within the 60 dBu contour of the proposed NCE FM facility. Population counts are per the 2010 Census, using the block centroid method. The results of that study indicate that the following existing stations provide protected NCE service to this area, as depicted on the attached map exhibit:

<b>Callsign</b>	<b>Channel</b>	<b>Community</b>
none		

The following table lists the population served by the proposed facility, along with the populations which will receive their first and/or second NCE service as a result of the grant of the instant application.

<b>Proposed</b>	<b>Population</b>
60 dBu	6,880
1 <sup>st</sup> NCE Service	6,880 100%
2 <sup>nd</sup> NCE Service	0 0%
1 <sup>st</sup> + 2 <sup>nd</sup> NCE Service	6,880 100%
