Chuck,

The site numbers are IN14308-A and IN20401-A. Use the email with centerlines

Thanks,

Phillip,

Can you please go to our website and go to the Site Locator tab and send me the SBA Site Numbers for these sites? Once I have that I will email you the centerlines available for these sites.

You should be able to use this for the FCC requirement.

Good morning Chuck,

I left you a voicemail yesterday seeking site assurance letters for two towers in Indiana. One in Logansport (ASR 1242071) and one in Monticello (ASR 1004163). At this time we are just looking for a letter for the FCC, I have attached a brief example of what we are looking for. We need this letter prior to even being able to submit to the FCC. After we get approval from the FCC for these two new stations we would then begin the application process with SBA. Mr. Roach, got your email from the ASR database. Would either of you be able to help with this? We would like to be able to submit to the FCC as soon as the window opens, but we have to have the letter to do so.

Thanks,
