

The map displays the state of Vermont with its geographical features, including major roads and numerous towns. It highlights several proposed digital TV service areas, each represented by a green outline and labeled with a callout box indicating the station name and power level (e.g., "WGLG(FM) 60 dBu f(50,50)"). The stations shown are:

- WGLG(FM)**: Located near Swanton.
- WGLY-FM**: Located near Vergennes.
- WCMD(FM)**: Located near Middlebury.
- WGLV(FM)**: Located near Rutland.
- WFTF(FM)**: Located near Fair Haven.
- WCMK(FM)**: Located near West Brattleboro.
- W243AE**: Located near Newport.
- W242AG**: Located near Hanover.
- W216CB**: Located near Clarendon.
- W220AX**: Located near Bellows Falls.

A central area is labeled "PROPOSED 205A 60 dBu f(50,50)" and "CM Proposed". The map also shows other existing stations like WCKJ(FM) and W243AE. Latitude and longitude coordinates are provided along the top and left edges, and distances in kilometers are indicated at the bottom.
