

FCC Form 303-S
E/I Symbol Certification

On or about October 25, 2016, following the discovery of a technical error that occurred at the network, Bounce TV, which is on a multicast stream, notified KCEC that two programs aired during the 3rd Quarter 2016 without the requisite E/I symbol: *All In with Laila Ali* and *Everyday Health*.

As this network error occurred between September 10, 2016 and October 15, 2016, the E/I symbol was missing from the same programming during the first two weeks of the 4th Q 2016, as noted in the amended 3rd Quarter and original 4th Quarter children's programming reports filed by the Station. Bounce TV established new processes to ensure the technical issue did not recur during subsequent quarters. Additionally, the affected programs were re-broadcast with the E/I symbol for six consecutive weeks beginning October 30, 2016 through December 3, 2016 again, as noted by the station in its 4th Quarter 2016 report.
