

Compliance with Special Operating Conditions or Restrictions

The applicant in coordination with other users of the site is committed to reducing power or ceasing operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines. In addition, the Applicant commits to complying with any special operating conditions or restrictions listed on the construction permit which requires no action or specific response at licensing. Required responses to listed special conditions or restrictions are listed below.

- The applicant has installed a Harris FMC Series (EPA Type 1), 5-bay, full-wavelength spaced antenna, in conformance with the outstanding Construction Permit. Consequently, automatic program test authority applies and no further documentation to demonstrate compliance with the FCC radiofrequency field exposure guidelines is required at this time.
