

**Tyler Media L.L.C. (the “Applicant”)
Facility 203072**

Special Operating Conditions

The construction permit contains two special operating conditions that are inapplicable to the facilities identified in the instant application.

The first special operating condition authorizes the mounting of the antenna on a nondirectional AM tower.

The third special operating condition authorizes the mounting of the antenna on a directional AM tower.

The antenna for the FM translator was not mounted on or near any AM tower.

The antenna for the FM translator was mounted on a pole connected to an existing equipment shelter as indicated in File Number 0000168926.

The Applicant respectfully submits that the two special operating conditions discussed above are inapplicable to the instant application.
