

K06QI-D
Radiation Statement
November 28, 2021

The applicant proposes to locate on an existing established radio tower. The proposed ERP is 150 watts at a height of 10 meters AGL horizontally polarized. This proposal is well within both controlled and uncontrolled radiation exposure limits. Nevertheless, placards warning of radiation hazard are posted in and around the site. Station staff will be trained how to turn off the transmitter in the event that anyone climbs the tower.
