Technical Exhibit

W41DO-D is being displaced early by T-Mobile with a shutdown date scheduled for 06/03/2018.

Ventana Television Inc. submits this displacement application to move to channel 33. Ventana acknowledges that TV Study currently shows prohibited interference to the currently licensed facilities of WCBS-TV in New York and WFSB-TV in Hartford, CT by this proposal. Both stations are scheduled to repack to channel 36 during phase 4 by 08/02/2019. Ventana Television agrees not to begin operations on channel 33 until after that date and ensuring that both stations have completed their repack moves. Ventana requests the Commission disregard interference predicted by TV Study to WCBS and WFSB on channel 33 in processing this proposal. See accompanying waiver request.

Applicant requests the TV Study analysis of this proposal be run with a cell size of 0.5 km and a profile increment of 0.5 km.

Ventana also understands that the proposal is predicted to receive incoming interference levels well in excess of de minimis levels. Ventana agrees to accept this level of interference.
