

**Online Public Inspection File Exhibit
KSMQ Public Service Media, Inc.**

While conducting its due diligence in connection with preparing this license renewal application, KSMQ discovered that the 2014-2015 Annual EEO Public File Report had not been uploaded into the station's online public inspection file (OPIF) when the Report was prepared back in 2015.

The 2014-2015 Annual EEO Public File Report was prepared timely but, as a result of an administrative oversight, it was not uploaded to the OPIF at that time. As of this filing the 2014-2015 Annual EEO Public File Report has now been uploaded to the OPIF and the online public file is otherwise complete.
