To Whom It May Concern.

SWCOTV overlooked filing the application to cover the construction permit for K31CT-D. The application was granted on 6/30/21 and the facility was constructed on July 8th, 2021.

SWCOTV is operating this facility as a translator of KREZ-TV out of Durango, CO.

SWCOTV is a local government entity which sole purpose is to provide OTA television service to our population.

We apologize for overlooking the two week grant date of this construction permit. We would ask that the FCC grant this application to cover the construction permit; and allow this license to continue to serve the public.

Thank You,
