

### **Request for Special Temporary Authority Exhibit**

Low Power Television ("LPTV") television station WEEG-LD, Philadelphia, Pennsylvania (Facility ID No. 167606, "WEEG"), respectfully requests an extension of its existing special temporary authority ("STA") (LMS-[0000093778](#)) to allow the station to continue to operate. Grant of this STA request would be consistent with the Commission's policies with respect to assisting LPTV stations that are displaced during the Commission's spectrum auction repack process, where grant of this STA request will aid WEEG in transition from its pre-auction Channel 48 to its authorized displacement Channel 21. Due to long pending matters at the FCC, the FCC granted a tolling of the Channel 21 displacement CP until 666 days after the end of the litigation as the heart of the FCC matters. As such, the STA will also allow the station to continue to operate while pending matters continue to make their way through the FCC.
