

## Notice of Suspension of Operations

On December 15, 2021, a significant wind storm impacted the area where the K30KQ-D transmitting facilities are located. It is believed that the high winds resulted in K30KQ-D going off the air. It is anticipated that the station will resume operations within 30 days after December 15, 2021, and therefore special temporary authority for the station to remain silent will not be required. The FCC will be notified of the date on which operations resume.
