

STATEMENT AS TO PUBLIC INSPECTION FILE RULE COMPLIANCE

The applicant wishes to amend its response dealing with whether it was diligent as required in the process of uploading and maintaining a portion of its online public inspection file during the renewal period.

One of the reports that the applicant advised was late uploaded was the Issues/Programs report for Q4 of 2018. The applicant has reviewed publicly available information and determined that there was a government shutdown at the time that the Q4 of 2018 Issues/Programs report should have been uploaded. Consequently, as the delayed action was due to a government shutdown and, not due to applicant delay, this late filing should not be attributed to the applicant and its compliance with Commission requirements.
