

“Non-Consummation” of Certain Stations

Due to a clerical error, the following low-power television stations were incorrectly listed in the assignment of license authorization for LMS File No. 0000152613:

| <u>Call Sign</u> | <u>Community of License</u> | <u>State</u> | <u>Facility ID No.</u> |
|----------------------------|------------------------------------|---------------------|-------------------------------|
| K06QV-D (formerly K42LA-D) | Lordsburg | NM | 185922 |
| K28QS-D (formerly K44LI-D) | Lordsburg | NM | 185923 |
| W28FE-D (formerly W42EG-D) | Lenox | GA | 186165 |

These stations, however, were assigned to Lowcountry 34 Media, LLC (“Lowcountry”) pursuant to LMS File No. 0000152507 and were correctly listed in the assignment of license authorization for that application. Accordingly, pursuant to FCC staff’s instruction, in the instant consummation notice, Lowcountry has indicated that these stations will not be consummated for purposes of LMS File No. 0000152613 but are listed as consummated in the separate consummation notice for LMS File No. 0000152507.
