

*Discrepancies exist in the wording of §73.7003(b)(2), which indicates use of a standard 3.16 mV/m (70 dBμ) FM contour regardless of reserved band, non-reserved band or Translator designation; and the wording of the actual Schedule 340 "Diversity of Ownership" certification, which indicates use of the principal community (city grade) contour (which is nominally 70 dBμ for non-reserved band stations, 60 dBμ for reserved band stations and not-applicable for Translators). Therefore, out of an overabundance of caution, both the 70 dBμ and 60 dBμ contours have been employed for reserved band (NCE-FM) stations and Translators herein.

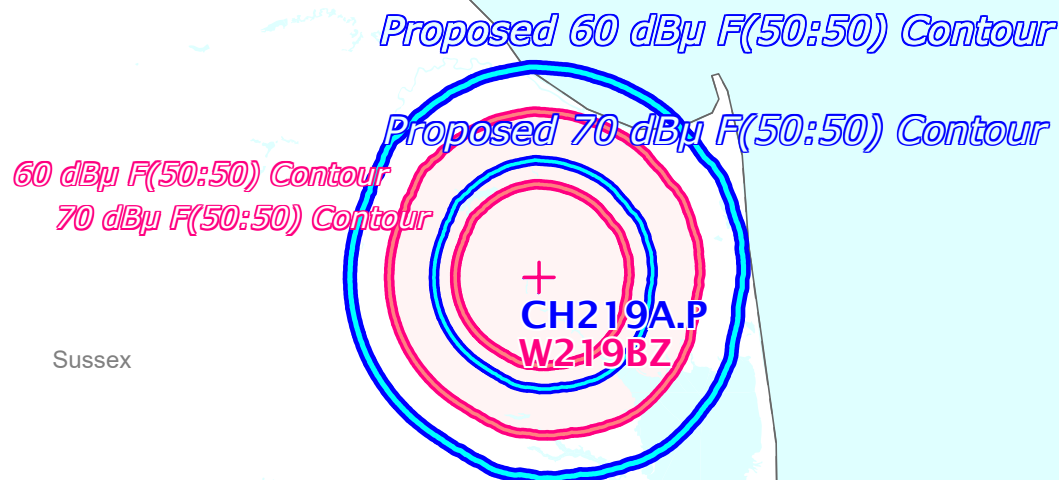

- 70 dBμ Non-Reserved Band Commercial FM Contours (CH221-CH300)
- 60 dBμ & 70 dBμ Reserved Band NCE-FM Contours (CH201-CH220)*
- 60 dBμ & 70 dBμ Non-Fill-In FM Translator Contours (CH201-CH300)*
- 5 mV/m Daytime AM Contours (AM Band)

Applicant certifies: (1) The principal community (city grade) contour of the proposed station overlaps the principal community contour of another authorized station (comparing radio to radio and television to television, including non-fill-in translator stations) in which any party to the application has an attributable interest as defined in 47 CFR Section 73.3555.
(2) That it has placed documentation of its diversity qualifications in the applicant's public inspection file and has submitted to the Commission copies of the documentation.
(3) The applicant's certification is based on a pledge to divest the attributable broadcast interest or resign from an attributable positional interest of the facility noted herein: W219BZ - Lewes, DE (Facility ID: 89007)
(4) The applicant certifies that it qualifies for points for "diversity of ownership,"; and that the applicant and any party to the application pledge to comply with the restrictions on station modifications and acquisitions, as defined in 47 CFR Section 73.7005, during the period from grant of the construction permit until the station has achieved at least four years of on-air operations.
