

PURPOSE OF AMENDMENT

The SOU application, file number 0000167432 is part of MX Group 179 and is MX to application 0000166618 for Gold Beach, OR. The Gold Beach application is third adjacent to the SOU application. The original SOU application would generate impermissible interference to the Gold Beach application.

SOU proposes to relocate the proposed 206A facility to another tower site, which is approximately 14km north-northeast of the currently proposed site. By relocating in this fashion, both the Gold Beach and the SOU applications can be granted.

This amendment proposes to relocate the antenna, and change HAAT. It is considered a minor modification.
