

Exhibit Clarifying July 13, 2020, Silence Start Date

At the direction of FCC Staff, the licensee is filing this exhibit to clarify that the entry on this application for “Date Station Went Silent” is incorrect. The actual date on which the station went silent is July 13, 2020; however, LMS will not permit the licensee to input that date, thus necessitating this explanatory exhibit. The July 13, 2020, silence date is further noted several times in the additional exhibit to this application setting forth the grounds for the licensee’s Request for Silent STA and Request for Section 312(g) Relief.
