

Response Regarding LMS Error

The Applicant hereby submits this exhibit in response to Item 6 in the Alien Ownership section of its amendment to its pending application for modification of DTV station WCWF for the sole purpose of bypassing an error in LMS. As indicated by its response to each question regarding Alien Ownership, Licensee's ownership structure does not trigger any alien ownership concerns, and the answer is an affirmative "no" with respect to any requested/received declaratory ruling(s).

Yet, because LMS is erroneously not allowing the validation or filing absent an unnecessary exhibit, the Applicant is providing this Exhibit for the sole purpose of bypassing the LMS error in order to file the requested amendment.
