Dear Permittee,

This concerns the above-referenced requests for waiver of the Commission's tolling provisions and tolling of the Stations' construction permit expiration date (Requests). We are unable to process the Requests without additional information. Therefore, please provide the following information for each station:

1. A detailed accounting of all steps taken to complete construction since the grant of the extension of construction permit including dates for each action and supporting documentation.
2. A detailed accounting of any and all circumstances outside of your control that prevented construction since the grant of the extension of construction permit including dates of each circumstance and supporting documentation. Please describe how such circumstance(s) directly impacted construction.
3. A detailed accounting of what construction remains and a timeline plan of how and when you expect to complete construction and begin operations.

Please file the above-outlined information in the form of an amendment to each of the Requests. Failure to submit this information within 30 days of the date of this letter will result in the dismissal of the Requests.¹ As an alternative to amending the Request with the requested information, the Permittee may request withdrawal of the Request and submit its construction permit for cancellation.

¹ 47 CFR § 73.3568(a) (dismissal for failure to prosecute).

For questions or additional information on this matter, please contact Shaun Maher, Video Division, Media Bureau at 202-418-2324 or Shaun.Maher@fcc.gov.

Sincerely,

/s/

Barbara A. Kreisman
Chief, Video Division
