

**KCWI-TV, Des Moines, Iowa  
Facility ID 51502**

**STA Extension Request**

As previously reported, on August 18, 2021, KCWI-TV began experiencing intermittent outages and stabilized its operations on August 19, 2021, by reducing power to 50% and operating on a single cabinet<sup>1</sup>. The station is ordering a replacement transmitter, but COVID-19 related supply chain issues have slowed progress. The supplier believes the station can take delivery of the replacement transmitter in May 2022.

TEGNA Broadcast Holdings, Inc., the licensee of KCWI-TV, requests an extension of its special temporary authority to continue operating with power reduced to 50% for an additional six-months.
