

**WAUG-LD  
LICENSE RENEWAL AMENDMENT EXHIBIT**

Saint Augustine's University, licensee of WAUG-LD (the "Station"), Raleigh, NC, respectfully submits this Exhibit to accompany the amendment of its pending license renewal application (LMS File No. [0000120044](#)), originally filed August 3, 2020. The licensee hereby amends its license renewal application as described below. Except as amended hereby, the Exhibit filed with the original renewal application otherwise remains effective and is incorporated by this reference.

*Discontinued Operations*

The licensee hereby amends its pending license renewal application to indicate a negative response to the "Discontinued Operations" certification, which states: "Licensee certifies that during the preceding license term the station has not been silent for any consecutive 12-month period." As explained more fully in the licensee's recently filed Request for Extension of Silent STA and for Waiver of Section 312(g) 1-Year Silence (LMS File No. [0000120875](#)) (the "Waiver Request"), WAUG-LD's prior, channel 8 facility was displaced during the repack, rendering WAUG-LD silent as of August 29, 2019. The licensee sought and obtained both (1) special STA to remain silent and (2) a construction permit to operate WAUG-LD on a channel 4 displacement facility. The displacement CP expires approximately one year from now—on September 5, 2021—and the licensee has thus far been unable to construct the authorized displacement facility. Accordingly, the licensee is still currently silent despite its efforts to resume operations prior to August 29, 2020.

At the time the renewal application was filed on or about August 3, 2020, WAUG-LD had not yet been silent for one year; that one-year anniversary has now occurred as of August 29, 2020. In recognition of the extenuating circumstances surrounding the licensee's one-year silent status, WAUG-LD's Waiver Request was granted on August 31, 2020, thus reinstating the Station's license and extending its current silent STA until February 21, 2021. (See LMS File No. [0000120875](#).) The licensee therefore respectfully submits that its one-year silent status does not materially affect this license renewal application; Section 312(g) will no longer stand as an impediment to the grant of this renewal application once the Station resumes operations.

*Adherence to Minimum Operating Schedule and Adherence to Operational Parameters*

With respect to the period from August 29, 2019, to present, described in the Exhibit filed with the original renewal application, the licensee wishes to advise the Commission that an extension of silent STA was recently sought and granted in LMS File No. [0000120875](#).
