

**Silent Extension Justification**  
**KJUN-CD, Morgan City, LA (Fac. Id. 24979)**

KJUN-CD went silent on August 29, 2021 during Hurricane Ida's landfall. The station relies on its sister station KFOL-CD in Houma, Louisiana to receive an over the air signal and it has been operating with reduced facilities that do not provide an adequate over the air signal to KJUN-CD's tower. However, KFOL-CD is completing its buildout of new facilities from a new tower and will soon be able to deliver an over the air signal to KJUN-CD's tower. At that time, KJUN-CD will be able to recommence operations and will file a resumption notice. In the interim, KJUN-CD requests extension of the existing temporary authority to remain silent.
