

**WJWN-TV 58342 – San Sebastian, Puerto Rico  
Special Temporary Authority Application**

**WJWN-TV STA Exhibit**

America-CV Station Group, Inc. is the licensee of WJWN-TV, Facility ID No. 58342, San Sebastian, Puerto Rico. WJWN-TV procured a replacement full-service mask filter and replacement transfer switches earlier this year. Although engineers have completed installation of the new equipment, the problems giving rise to WJWN-TV's initial STA request persist. Engineers are presently investigating other potential causes of WJWN-TV's filter overheating and transmitter powering off when operated at full power. WJWN-TV seeks extension of its existing STA (file number 0000160872) to operate at 280 kW ERP, initially granted October 4, 2021, while engineers diagnose and resolve these impediments to returning to full power.
