**Online Public Inspection File**

Northeastern Pennsylvania Educational Television Association (NPETA), licensee of noncommercial educational radio station WVIA-FM, Scranton, Pennsylvania, reports the following with regard to the timely placement of one (1) item in the station's public inspection file during the current license term. The WVIA-FM online public inspection file is complete with all required items, but one (1) annual EEO public file report (for 2019-20) was added several weeks late due to an oversight that NPETA corrected as soon as it became aware. NPETA regrets the brief delay in the upload of this item but submits that station's online public file is now complete and has been substantially compliant throughout the license term.
