

Adherence to Minimum Operating Schedule Exhibit

Pursuant to a Request for Silence STA (File No. 0000180201), KVHC-LD was silent from January 14, 2022 to February 15, 2022 (31 days). As noted in the STA, KVHC-LD was taken off the air as its new antenna was showing major reflected power. The antenna was removed and transported for testing.

During this time, KVHC-LD took the opportunity to move its transmitter and equipment from its previous licensed site to the CP site (now licensed site) to minimize the time the station would be off the air.

After encountering delays with the tower crew's availability due to COVID, the station returned to air on February 15, 2022.
