

NEW FAC NO 763452 NCE FM AMENDMENT 04-06-2022
NATURE OF AMENDMENT

This amendment seeks to remove the proposed facilities from MX Group 221. There is no prohibited overlap between the facilities proposed herein and those other facilities proposed in MX Group 221 or any other licensed, permitted or proposed facilities. No new MX's are created. The proposed facility is Mutually Exclusive with the facilities, as applied for. This amendment seeks to change the Community of License from Onalaska, Washington to Mossyrock, Washington. This amendment changes First and Second Fair Distribution of Noncommercial Service claims from "Yes" to "No." The application further seeks to change location and elevation, reduce power and specify a different Directional Antenna system. Reasonable Assurance contact was attached for the new tower site. This application may be granted immediately as a singleton. Nothing of value has been promised or received in return for the filing of this application.
