

REQUEST FOR EXTENSION OF SILENT STA

Edge Spectrum, Inc. ("ESI"), licensee of K21JS, Harrison, AR (Fac ID 11133) (the "Station"), hereby requests an extension of its silent authority.

On or around July 13, 2021, the Station went silent while it completed construction of its digital facilities. See LMS File No. 0000158007. Although ESI has been working diligently to complete construction of the Station's digital facilities, ESI has experienced a number of challenges completing construction of its digital facilities, including: the lack of availability of suitable transmitters, delays in the delivery of antennas, limited installer availability, limited RF engineers, and tower relationships.

Concurrently herewith, ESI is filing a request for tolling of the Station's digital construction permit to provide ESI with an additional 180 days to complete construction. ESI respectfully requests authority for the Station to remain silent until construction is complete.
