

Application Purpose

The purpose of this KLRV license modification is to change the licensed geographic coordinates to match the geographic coordinates of the Antenna Structure Registration. No other changes are proposed.

Since the coordinates of the KLRV license and the Antenna Structure Registration (ASR 1239653) coordinates are separated by less than 3 seconds latitude and/or 3 seconds longitude, this corrective form can be filed. A Construction Permit Application is not necessary as stated in 47 C.F.R Section 73.1690(c)(11).

47 C.F.R Section 73.1690(c)(11) relates to geographic coordinates

No physical changes have occurred. There is no change in site elevation, center of radiation, or overall tower height.

Exhibit 1 shows the corrected coordinate spacing to all licensed and proposed facilities remains in compliance with 73.509 (contour protection) requirements.

Exhibit 2 demonstrates continued coverage of the Community of License

Exhibit 3 is the FCC Antenna Structure Registration Information for ASR 1239653
