

## KVFW Displacement Application

### Statement for record:

New York Spectrum Holding Co (NYSHC), licensee of KVFW-LD, Fort Worth, TX received a letter from the FCC advising that its outstanding digital displacement CP had been forfeited as a result of the continued pendency of request for 312(g) during which the CP expired. NYSHC has filed a supplement to its silent STA and 312(g) request and tolling request to request reinstatement of the original CP (F000053902). In an abundance of caution, NYSHC is filing this application in order to ensure that it has an authorization to implement. However, in the event that that CP is reinstated and tolled, NYSHC requests the dismissal of this application in favor of its existing CP.
