

Notification of Suspension and Request for Dark Authority STA

Airwaves, Inc.  
KUTA-LD, Logan UT  
Facility ID 18166  
FRN 0006008387

On behalf of Airwaves, Inc., please be advised that KUTA-LD went off the air effective on June 11, 2011, has remained dark. Permission by STA to remain dark is requested. A minor modification has been granted and construction is well underway, so licensee expects to submit a new license to cover and resume transmission well before the June 11, 2012, anniversary.

This station was part of a station swap between Airwaves, Inc. and Cache County, Utah, having a license for K22MD. The consummation took place on January 29, 2021. Because the County was still getting parts for Channel 13 it requested permission to continue to utilize the facility of KUTA-LD as a regular translator in service on the air, until it could complete the build out. Also the Channel 22 construction could not be completed while the transmitter location was snowed in. Airwave granted permission for this use. On June 11, 2021, the County notified by e-mail that it had finished its build out and was no longer using Channel 13.

Airwaves Inc. certifies that neither it nor any principal is subject to denial of benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. 862.

I certify that the statements herein are true and correct, to the best of my knowledge and belief, and are made in good faith.

Respectfully submitted,

  
Michael Couzens, Attorney for Airwaves Inc.
