CCR-BUTTE IV, LLC  
APPLICATION FOR MODIFICATION OF LICENSE  
KMBR(FM) – BUTTE, MT  
FACILITY ID – 63875

## **PURPOSE**

The application, of which this Exhibit is a part, requests a modification of the license for KMBR(FM) to correct the geographic coordinates of the antenna site. No other changes are requested.

## **COMPLIANCE WITH 47 CFR §73.1690(C)(11)**

The currently licensed antenna site coordinates are:

Latitude        46-00-28.7 N        (NAD83)

Longitude      112-26-33.0 W        (NAD83)

The actual site coordinates are:

Latitude        46-00-27.5 N        (NAD83)

Longitude      112-26-33.8 W        (NAD83)

The requested correction is 1.2 seconds in latitude and 0.8 seconds in longitude and thus is within the three (3) second change allowed by 73.1690 (c)(11).

KMBR(FM) is now, and will remain at the new coordinates, fully spaced to all existing facilities and applications. No new short-spacings will be created by this application.
