CCR-ST. GEORGE IV, LLC
APPLICATION FOR MODIFICATION OF LICENSE
KREC(FM) – BRIAN HEAD, UT
FACILITY ID – 6784

PURPOSE

The application, of which this Exhibit is a part, requests a modification of the license for KREC(FM) to correct the geographic coordinates of the antenna site. No other changes are requested.

COMPLIANCE WITH 47 CFR §73.1690(C)(11)

The currently licensed antenna site coordinates are:

Latitude	37-32-31.9 N	(NAD83)
Longitude	113-04-07.8 W	(NAD83)

The actual site coordinates are:

Latitude	37-32-30.0 N	(NAD83)
Longitude	113-04-08.0 W	(NAD83)

The requested correction is 1.9 seconds in latitude and 0.2 seconds in longitude and thus is within the three (3) second change allowed by 73.1690 (c)(11).

KREC(FM) is, and will remain at the new coordinates, fully spaced to all existing facilities and applications. No new short-spacings will be created by this application.
