

PROPOSED MINOR CHANGE
License BLH- 20110510ABG
WTKE-FM Niceville FL
FACID 10055

ALL PURPOSE EXHIBIT

This instant application requests modification of the licensed facility to a new tower location, height and effective radiated power while maintaining the authorized operating channel and class. The applicant proposes to modify the license to commonly-owned ASR 1031783

MULTIPLE OWNERSHIP CONSIDERATION

This instant application requests a change in location of 4km from the licensed location and does not affect the ownership considerations of the licensee.

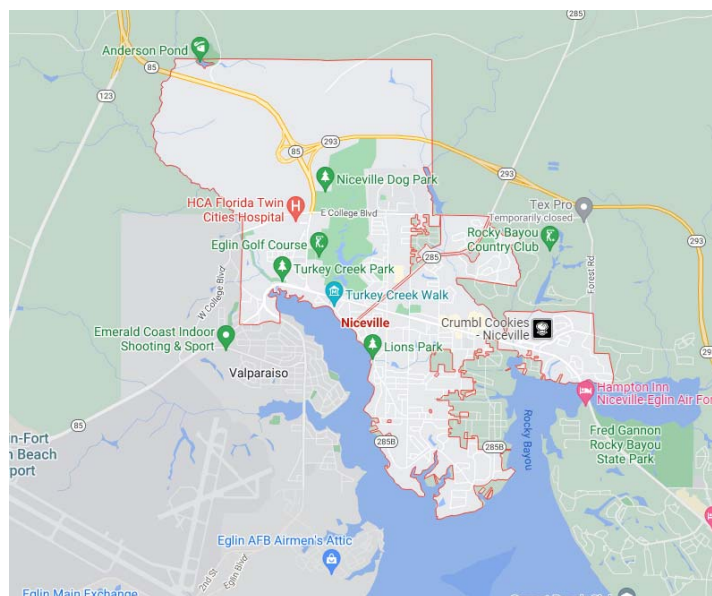

ALLOTMENT AND SPACING CONSIDERATIONS

The proposed facility comply with the applicable engineering standards and assignment requirements of the FCC rules.

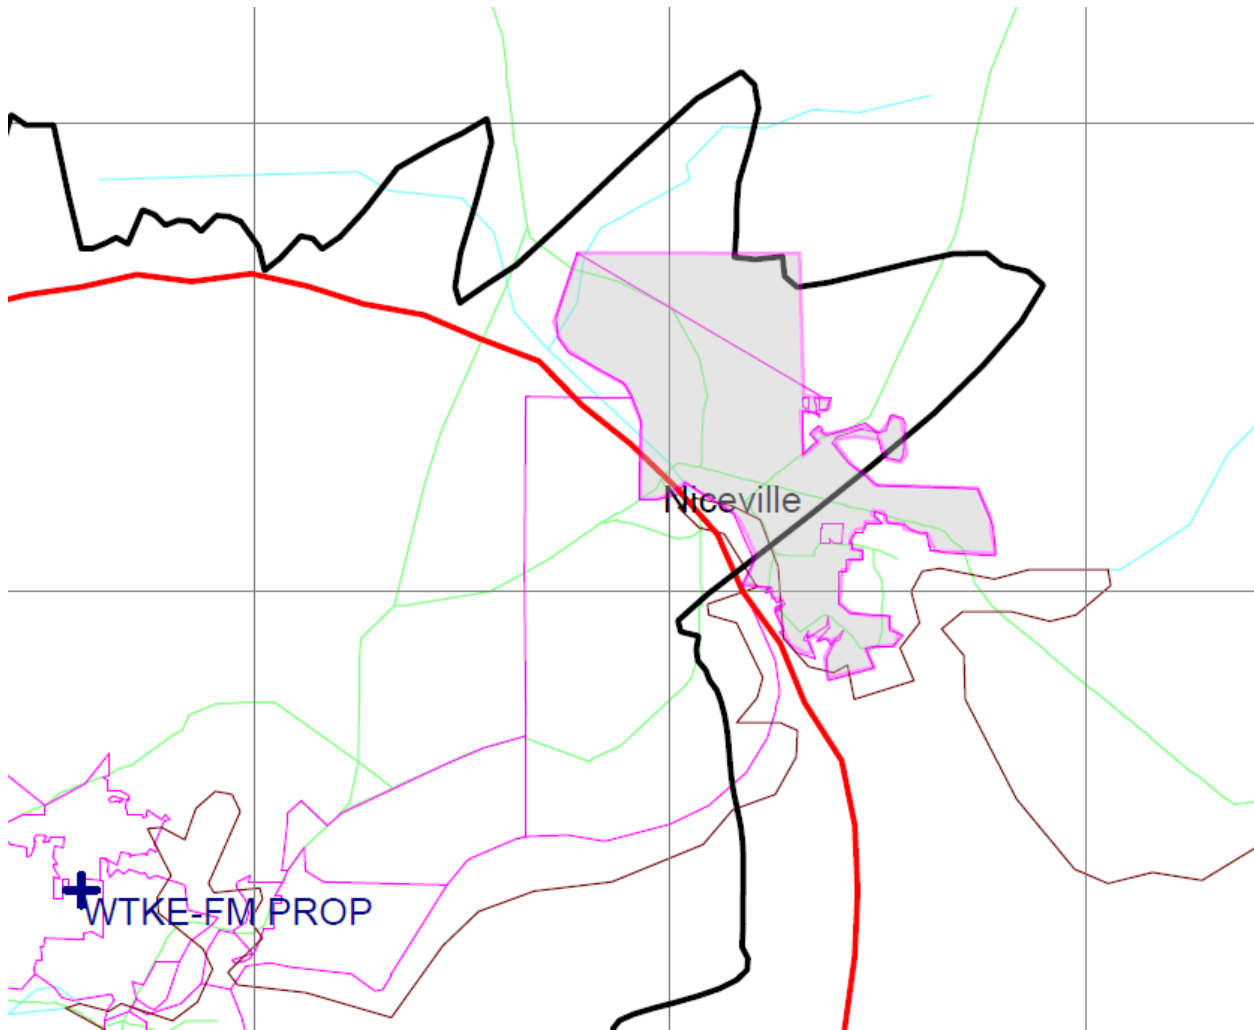

COMMUNITY CONTOUR COVERAGE

Using FCC 70dBu (50,50) curves, the community of license is not fully covered by the proposed facility. However, using standard accepted Longley Rice contour prediction, it is seen that well over 50% of the area of the community of Niceville FL is encompassed by the proposed 70dBu contour.

The most recent overview of the boundaries of the community of Niceville appear as follows:

The FCC 70dBu (50,50) contour (Red) and the Longley Rice 70dBu (Black) contour appear as follows:

Thus demonstrating that well over 50% of the area of the community is covered by the proposed facility.

CONTOUR PROTECTION

The current licensed facility is short-spaced to first-adjacent station WWLY Panama City. The proposed modification herein does not alter the distance to WWLY over 1km. The proposed facility herein will continue to provide contour protection to both the licensed WWLY facility as well as the current active construction permit for WWLY as demonstrated on the attached map.

MAP OF CONTOUR PROTECITON
