

KMYS(TV) Hosting Arrangements

Deerfield Media (San Antonio) Licensee, LLC (“Licensee”), licensee of KMYS(TV), Kerrville, TX (Facility ID 51518; RF Channel 32), is filing this application to (1) commence ATSC 3.0 operations from KMYS(TV)’s current facility and (2) identify host station facilities that will be used to air KMYS(TV)’s programming in ATSC 1.0 format.

As indicated in the Form 2100 application, Licensee proposes to simulcast KMYS(TV)’s primary stream (currently affiliated with *DABL*) in ATSC 1.0 format on KCWX(TV), Fredericksburg, TX (Facility ID 24316; RF Channel 5), pursuant to a written hosting agreement with Corridor Television, L.L.P.

Additionally, to minimize any loss of over-the-air programming available to ATSC 1.0 viewers that might otherwise result from KMYS(TV)’s transition to the ATSC 3.0 standard, Licensee proposes to air KMYS(TV)’s multicast streams currently affiliated with the *TBD* and *Stadium* networks on KABB(TV), San Antonio, TX (Facility ID 56528; RF Channel 30), pursuant to a written hosting agreement with KABB Licensee, LLC.

The PSIP virtual channels for each of KMYS(TV)’s program streams described herein will remain unchanged. Accordingly, Licensee proposes to air KMYS(TV)’s streams in ATSC 1.0 on temporary host facilities as follows:

| Network | RF Channel of 1.0 Host | PSIP Virtual Channel (No Change) |
|-------------------|-----------------------------------|---|
| DABL (Primary) | 5 | 35.1 |
| TBD | 30 | 35.2 |
| Stadium | 30 | 35.3 |
