Online Public Inspection File Certification

Scripps Broadcasting Holdings, LLC (“Scripps”), licensee of the station that is the subject of the instant application (the “Station”), hereby certifies that except as described herein, the Station has timely placed in its online public inspection file all documents required to be placed in the file by 47 C.F.R. § 73.3526 and otherwise has complied with the Commission’s public inspection file requirements in all material respects.

On September 19, 2019, the license for the Station was assigned to Scripps pursuant to a long form assignment of license application (BALCDT-20190403ABZ). Scripps notes that because of the long-form ownership change, the current owners are not liable for the violations of the prior licensee. However, out of an abundance of caution, Scripps discloses that the previous licensee failed to timely upload and/or file the third quarter 2015 and first quarter 2017 children’s programming reports and the 2014-2015 and 2016-2017 EEO Public File Reports.

Scripps requires its stations to comply with all FCC rules, including the rules for the political public file. Scripps employees are trained on FCC political public file compliance and Scripps has instituted a program under which station political public files are reviewed for completeness and timeliness. While Scripps believes the Station has complied with the political public file requirements, a few documents may have been uploaded to the political public file outside of Scripps’s requirement that all documents be uploaded within one business day. Scripps continues to work with its stations to ensure that all political public file materials are uploaded in a timely manner.
