

WABV Request for
Special Temporary Authorization to Remain Silent

WABV, Fac. Id. 3152, Abbeville, S.C. was taken silent due to an electrical storm. Upon examination, it has been determined that the damage to the station's transmitter is so extensive that it will not be able to return to authorized operation without significant repairs and adjustments that will require a period of more than thirty (30) day. Accordingly, request is made for authority to remain silent until WABV can be returned to operation in conformance with its licensed parameters.
