

**Notification of Reduced Power Operation**  
**and Request for Special Temporary Authorization**  
NCE Station WSQE(FM), Corning, NY (Facility ID 74030)

Pursuant to Sections 73.1560(d) and 73.1635 of the FCC's Rules, WSKG Public Telecommunications Council ("Licensee"), licensee of noncommercial educational radio Station WSQE(FM), Corning, New York, notifies the FCC of the temporary reduced power operation of WSQE and respectfully requests Special Temporary Authorization ("STA") to maintain the reduced power status for more than thirty (30) days.

Station WSQE has been operating at a reduced power (1.6 kW) since June 13, 2022 due to technical issues beyond its control. Specifically, the WSQE transmitter is operating at approximately 57% due to a power supply failure. The licensee is working on obtaining replacement power supply equipment as needed to restore full power operation, but currently expects delivery of the equipment to take several weeks. A grant of reduced power STA will serve the public interest by authorizing the licensee to maintain, without interruption, the station's current noncommercial educational radio operation for its local community pending receipt of the replacement parts and completion of the repairs.

WSKG Public Telecommunications Council is a noncommercial educational broadcaster and operates WSQE on a noncommercial educational basis. The licensee and station are therefore exempt from FCC fee requirements pursuant to Sections 1.1116 and 1.1162 of the Commission's Rules.
