Engineering Statement Amendment

K42IQ-D – FI 125496

Waiver Request:

The Licensee requests a waiver of the freeze on applications to file for a displacement channel in accordance with DA 14-808, as it has received a 120 day notification letter from T-Mobile. The Licensee intends to operate with an STA on a new frequency until such time that the displacement application is processed.

Amendment: Applicant was contacted by a group coordinating frequencies amongst Arizona translators and LPTV stations. Based upon maximizing the available channels and causing the least amount of interference to translator inputs they requested that we change from channel 33 to channel 21. We believe it is in the public interest to cooperate and request a change from channel 33 to 21.

Applicant is seeking to operate on Ch 21 @ 1.0 KW, Stringent Mask with the following antenna: Directional Scala SL-8, FCC ID 23503, bearing 180 deg T., C/R HAMSL 2800 M.

Respectfully submitted,

B. W. St. Clair
