

# Liberty Baptist Church

Rochester, IN

## Point System Factors

The proposed facility will provide new NCE service, and total coverage to 16,250 persons (2010 Census) and serve 684.72 sq km of area in the vicinity of Rochester, IN.

Contour distances were calculated by using the contour calculation methods of 47 C.F.R. §73.313(c) referencing the NDGC 30 sec terrain database for elevation data, as implemented in the Commission's TVFMFS Fortran computer program. Contour distances from the proposed facility were calculated for each integral radial degree (360 total), with linear interpolation between values. Population data used block-level census populations from the US 2010 Census, counting all population using the centroid method approved by the Commission. Area was calculated by scanning for latitude/longitude points within the contour using a 0.04 sq km resolution, then adding the results together, excluding large bodies of water.

As demonstrated below, the applicant qualifies as an established local applicant per 47 C.F.R. §73.7000:

**CONSTITUTION  
of the  
LIBERTY BAPTIST CHURCH  
of Rochester, Indiana  
Adopted January 30, 1977**

**THE PREAMBLE**

Reposing our faith wholly in the Lord Jesus Christ for our salvation, and believing in the teachings of the Holy Bible as the plenary and verbally inspired Word of the living God, we have affiliated ourselves with one another as a body of immersed believers, and we adopt this constitution as a declaration of our convictions so that we may carry on the Lord's work decently and in order.
