### ANTENNA STRUCTURE REGISTRATION

The Antenna Support Structure to be used by the proposed facility is registered as ASR# 1258592.

As part of the proposed project, this structure will be increased in height from the existing 15.2 meters to 18 meters.

On this date, the applicant has started the Obstruction Evaluation process with the FAA reflecting the increased height of the structure and a correction to the ground elevation to bring it into agreement with the elevation shown in the National Elevation Dataset. This has been assigned study number 2022-ANM-5346-OE.
