July 5, 2020

TO WHOM IT MAY CONCERN AT THE FCC:

The subscriber, Wifredo G. Blanco-Pi, is licensee of WAPA-AM Ponce, P. R. (formerly WISO-AM) and of its translator W268DJ.

I am also a licensed professional engineer PE5130 (Puerto Rico).

As required per CP to modify antenna at W268DJ (BPFT-20181102AAL) I monitored the signal, the antenna impedance and antenna current of WAPA-AM 1260 Khz. (WISO-AM) before and after changing the FM antenna.

The operational parameters and signal of WAPA-AM (WISO-AM) Ponce, P. R. has not been altered by changing the FM antenna from a one bay CL-FM to the new one bay CUSTOM MADE PSI Low Power Slant V FM directional antenna.
