

Justification for Tolling

Edge Spectrum, Inc. ("Licensee"), licensee of K16IP-D, Bonnerdale, AR (Fac. ID 183664) (the "Station") hereby submits this request for tolling out of an abundance of caution.

On July 11, 2022, Licensee submitted an application for a minor modification of the construction permit for the Station. The equipment to operate pursuant to the CP is all in position and ready to operate as soon as the minor modification is granted. Licensee anticipates that it will be able to file a license to cover on July 12, 2022 and seeks tolling for one week solely out of an abundance of caution.
