

## **New NCE License Application**

**202 A - 0.265 KW – 152 M AMSL**

**Facility ID No. 762479**

**Tifton, Georgia**

**July 2022**

### **Special Operating Conditions**

A Special Operating Condition (“SOC”) is on Construction Permit 0000167603. This SOC incorrectly assumes that the proposed antenna will be shared with another radio station, the Class D NCE FM station with Facility ID No. 317.<sup>1</sup> The proposed antenna will not be shared by any other broadcast facility. Only Facility ID 762479 will use this antenna. The licensee, Abraham Baldwin Agricultural College, is requesting the dismissal of the application for renewal of license of the Class D station (103.1 MHz) with Facility ID Number 317, contingent on the grant of the license application for the Class A station (88.3 MHz) with Facility ID 762479.<sup>2</sup> Therefore, the requirement for the permittee to conduct spurious emissions test is not applicable and a waiver of the condition is requested.

---

<sup>1</sup> To avoid possible confusion, reference is made to the Facility ID Numbers of the two NCE stations. Facility ID No. 317 is assigned to WPLH(FM), Tifton, Georgia. Facility ID No. 762479 is assigned to WJYI(FM), Tifton, Georgia. Effective August 3, 2022, the call signs will be exchanged and the surviving radio station will be Facility ID No. 762479, with call sign WPLH.

<sup>2</sup> Dismissal of renewal application File No. 0000111785, will result in dismissal of minor modification application 0000139125 and Special Temporary Authority BLSTA-20220307AAF (as extended).
