

## **EXHIBIT**

### **Minimum Operating Schedule**

Scripps Broadcasting Holdings LLC (“Scripps”), licensee of KSBY(TV), San Luis Obispo, California (“KSBY or the Station”), notes that KSBY operated at reduced power for more than thirty days in 2022.

On February 3, 2022, KSBY experienced a complete failure of its main transmitter. The Commission was timely notified of the reduced power operations on February 7, 2022 (FCC File Number 0000184569). On March 7, 2022, Scripps filed for an Engineering STA to operate at reduced (50%) power from the Station’s main transmitter (FCC File Number 0000185999) which was granted through September 13, 2022.

On April 13, 2022, KSBY returned to full power operations, and the Commission was duly notified on April 19, 2022, via a Resume Operations Notice (FCC File Number 0000189520).

In 2020, KSBY also experienced issues with its transmitter and operated at reduced power for less than thirty days from November 25, 2020 to December 22, 2020 (Notice of Reduced Power Operations FCC File Number 0000129478; Resume Operations Notice FCC File Number 0000130027).
