

### **Nature of Application**

This application is necessary following the death of the licensee's sole shareholder, Stephen A Marks. As a result of his death, control of the stock in the licensee company will pass under his Will to his wife Mary Marks, as personal representative of his estate, until his will is probated and his assets are distributed to the beneficiaries of his estate. A Death Certificate and relevant portions of his Will showing his wife as his personal representative are attached hereto. When appropriate orders of the probate court ratifying Mary Marks as his personal representative are issued, they will be submitted to the Commission.

As this application is an involuntary transfer seeking FCC approval for the passing of control of the licensee from the company's sole shareholder to his personal representative under his Will, FCC approval is properly sought on this Form 316 application.
