

47 CFR Sec. 73.3555(a) Compliance

The contemplated assignment will result in the proposed assignee acquiring a single AM station in or near Springfield, Massachusetts, a market where the proposed assignee currently holds no attributable interests in a broadcast property. Thus, consent to the assignment will facilitate ownership of the proposed assignee's only broadcast facility in the affected local market and therefore complies with Section 73.3555(a) of the FCC Rules.
